

■ **SURE GRIP® ABSORBENT ADHESIVE FLOOR MAT**

Customized service through the companies you know and trust.

Absorbent Adhesive Floor Mat
Cutting Guide

Sure Grip®

Enhance your floor safety program today!

Sure Grip® — the next generation of sorbent/mat technology.

Sure Grip® is an industry-leading absorbent mat featuring superior absorbent technology. A sticky backing helps to keep this matting in place and allows for easy removal or replacement when no longer needed.

Advanced Absorption

Industry leading absorbency combined with high durability; fast drying and easy to clean. The universal sorbent mat absorbs both oil and water.

Stays Put

An advanced adhesive backing gives you the confidence that where you place the Sure Grip mat is where it will stay when applied to a clean surface.

Durable

Withstands both foot and forklift traffic without shifting, rippling, or bunching; heavyweight, fast drying, and easy to clean. Can be cleaned by using a broom, vacuum, shop vac or floor scrubber.

Versatile

Applications include Industrial/Manufacturing, Auto Repair, Body Shops, Foodservice, Grocery, Restaurants, Car Dealerships, Machine Shops, Entryways, and more. Easily cut and applied to all types and shapes of work surfaces. Rolls out easily to cover long areas quickly.

Adhesive Backed Matting

Adhesive stops short of each edge for easy removal

Why choose Sure Grip®?

Sure Grip® combines the absorbing power of a sorbent and convenience of using a floor mat while reducing the hazards of slips, trips and falls.

Sure Grip® is made from a heavyweight absorbent polyester/polypropylene needle punch fabric that features a sticky backing layer, which prevents the mat from making unwanted movement and reduces tripping hazards.

The adhesive backing ensures a tight grip that prevents the risk of flipping, kicking up, and curled corners and edges. The Sure Grip® adhesive stops short of each edge for quick removal and can be peeled up easily when replacement is required.

VERSATILE

Sure Grip® isn't just for floors; think workspaces, countertops, tool cribs and boxes.

Can be moved and re-applied if needed; will not leave residue behind.

Works well on concrete, tile, linoleum, and low-pile carpet.

Custom cut to any size for those hard to fit areas.

COST-EFFECTIVE

Replace your rental mats with Sure Grip® mats.

Offers better absorption than rental mats, which can leave puddles and run-offs.

Sure Grip® will not shift, bunch up, slide and get caught under wheels.

No need to continuously move mats back into place which limits productivity.

Lower cost in use.

SAFE

Slips, trips and falls are a leading hazard in the workplace.

Offers safe footing for employees.

Dries through evaporation quickly.

Save money on worker compensation claims.

Leakproof backing eliminates liquid from reaching the floors.

BARRIER PROTECTION

When used in entryways, it will stop dust, dirt, and debris from entering offices and storefronts.

For proper adhesion, surface needs to be clean and dry.

Select a dark color to hide dirt and grime.

Durable enough to be vacuumed and swept; withstands foot, cart and forklift traffic.

Sure Grip® allows wheels from carts, forklifts and pallet jacks to easily glide over the surface, keeping the matting secure.

Sure Grip® Cutting Guide for custom sizes, helps ensure a straight cut, while protecting floors underneath.

INDUSTRIAL AND MANUFACTURING

Matting absorbs both oil- and water-based liquids to keep your workplace clean

Stays put in warehouses and plant floors in heavy forklift, pallet jack, and foot traffic

Use near machinery to avoid employee slips, trips, and falls

GROCERY AND FOODSERVICE

A fast-drying solution in areas where water and moisture can drip or accumulate

Adhesive strength will not diminish even when wet

Great entry/exit matting that will not move or shift under shopping carts

RETAIL AND COMMERCIAL BUILDINGS

Protect from slipping and falling near sinks and drinking fountains

Place at transition areas to mitigate tracking dirt to front of house

Replace costly rental mat services with an inexpensive and disposable option

INTERESTING APPLICATIONS

- Base of a drinking fountain
- Floor runner behind a bar
- Floor in front of a utility sink
- Grooming area in a pet store
- Used by plumbers to keep floors dry while making repairs
- Below hand dryers in restrooms
