Reusable Work Gloves

Coated Gloves

Coated gloves are becoming the top style of work gloves in the industry. They offer a combination of abrasion, tear and chemical resistance as well as durability, tactile sensitivity and grip. Hospeco Brands Group uses four types of coatings for reusable work gloves. One coating used is a nitrile coating that has three different options, Smooth Finish, Sandy Finish, and Micro-Foam Finish. Another coating used is called the PU or Polyurethane coating. The next coating used is Latex which is available in Textured, Crinkle Finish, or Foam Finish options. Lastly we offer a very unique coating called Luxfoam®. Luxfoam® provides a much better abrasion resistance and softer more comfortable fit, it is also DMF and Silicone Free.

Winter Coates Gloves

Designed to protect your hands against the elements and extreme weather conditions.

Mechanic Gloves

Many applications require multi-faceted protection that only a cut and sewn glove can provide. Mechanics and utility gloves also tend to be more comfortable, highly dexterous with easy donning.

Cut Resistant Gloves

Cut resistant gloves and liners are designed to protect hands and arms from coming in direct contact with sharp objects. Coatings can be added to gloves for additional abrasion, tear and chemical resistance as well as enhanced grip.

Chemical Resistant Gloves

Made on porcelain hand molds that are dipped directly into the liquid compound. These gloves offer more dexterity than supported gloves. They are also measured by thickness, so you can determine the thicker the glove the more protection against chemical penetration you have.

Cut Resistant Leather Gloves

These gloves aim to reduce the direct impact of force on the top of the hand and fingers.

Leather Gloves

These gloves offer great durability for wear and tear. They also provide a good grip in dry and slightly oily applications. These come in cowhide, pigskin, goat skin, grain, and split leather options. There are four different categories that include premium, select, standard, and economy.

Cut Resistant Glove Liners

Seamless knit construction provides comfort, fit, and dexterity. Component materials comply with Federal Regulations for food contact 21 CFR.

Cotton Gloves

Cotton gloves are comfortable, offer good abrasion resistance, and do not scratch/damage surfaces or leave fingerprints. They can also be laundered and are an economical choice.

Shell + Coating Material Advantages

Shell Material	Advantages	
General Glove Yarn		
Cotton	<ul style="list-style-type: none">• Comfortable & Breathable• Absorbent	<ul style="list-style-type: none">• Seamless
Polyester / Nylon	<ul style="list-style-type: none">• Resistant to sunlight (UV Rays)• Slightly stretchy for more comfortable form• More Breathable	<ul style="list-style-type: none">• Finger Dexterity• Resistant to fungi and mildew
Cut Resistant Glove Yarn		
Industrial Engineered (IE)	<ul style="list-style-type: none">• Fits Medium & Heavy Industries• Breathable	<ul style="list-style-type: none">• High cut and abrasion resistance
Tektreme® - (HPPE)	<ul style="list-style-type: none">• Cooler and more breathable cut level material• Excellent dexterity and tactile sensitivity• Works well with chemical applications	<ul style="list-style-type: none">• Maintains performance with UV exposure• Environmentally Friendly Material• Ergonomic

Coating Material	Advantages	
Nitrile coating	<ul style="list-style-type: none"> • The most popular for wet applications 	<ul style="list-style-type: none"> • Withstands high oil applications
Polyurethane (PU) Coating	<ul style="list-style-type: none"> • The most popular for light applications 	<ul style="list-style-type: none"> • Great breathability
Latex Coating	<ul style="list-style-type: none"> • Commonly used in the agriculture, outside work, roofers, masonry applications 	<ul style="list-style-type: none"> • Great for wet applications such as water • Not good with heat
LuxFoam® Coating	<ul style="list-style-type: none"> • Our own proprietary coating • Combo of Latex, PU & Nitrile 	<ul style="list-style-type: none"> • DMF Free • Silicone Free

Types of Leather Material

Cowhide - Leather offers a high puncture resistance. It is the most popular choice for gloves because it is easy to maintain. Cowhide is greatly valued for its texture, appearance, durability and comfort. It has good insulation and protection, especially against heat.

Pigskin - Pigskin offers high abrasion resistance. It is dense lightweight leather with a soft and supple feel. Pigskin is breathable and it will not harden or stiffen once wet.

Goatskin - Natural oils make goatskin soft and pliable. Goatskin is considered one of the strongest leathers. The leather is excellent for flexibility, tactility, durability abrasion, puncture and tear resistance.

Work Glove Sizing

This sizing chart can assist in determining the size gloves that would best fit an individual. Please note, with the variations in types of gloves, this is only a guide to help determine sizing.

Directions

Place widest part of hand on chart above, lining-up the curve by the thumb and forefinger at the left edge.

X-SMALL - 2.5" (6.35 cm)

SMALL - 3" (7.62 cm)

MEDIUM - 3.5" (8.89 cm)

LARGE - 4" (10.16 cm)

X-LARGE - 4.5" (11.43 cm)

XX-LARGE - 5" (12.7 cm)

Chemical Resistant Gloves

General Purpose Flock Lined Latex Gloves

- Flock lined
- Patterned palms for added grip

Item #	Description	Color	Size	Selling Unit
GL-L116LS	16 mil, Honeycomb Pattern	Yellow	Small	10 dz pairs/cs
GL-L116LM	16 mil, Honeycomb Pattern	Yellow	Medium	10 dz pairs/cs
GL-L116LL	16 mil, Honeycomb Pattern	Yellow	Large	10 dz pairs/cs
GL-L116LX	16 mil, Honeycomb Pattern	Yellow	X-Large	10 dz pairs/cs

Standard: Meets ASTM 4679 for tensile strength
Complies with FDA CFR Title 21 Indirect Food Additive Regulations Part 174-178

Solvent Resistant Flock Lined Nitrile Gloves

- Flock lined
- Latex free
- Patterned palms for added grip
- Resists a broad range of chemicals

Item #	Description	Color	Size	Selling Unit
990800-SM	15 mil, Diamond Pattern	Green	Small	12 dz pairs/cs
990800-MED	15 mil, Diamond Pattern	Green	Medium	12 dz pairs/cs
990800-LG	15 mil, Diamond Pattern	Green	Large	12 dz pairs/cs
990800-XLG	15 mil, Diamond Pattern	Green	X-Large	12 dz pairs/cs

Standard: Meets ASTM 4679 for tensile strength
Complies with FDA CFR Title 21 Indirect Food Additive Regulations Part 174-178

Benefits of Flock Lining:

- Flock lining refers to the cotton lining inside gloves
- Becomes slightly thicker, offering additional abrasion resistance and durability
- Easier to remove gloves
- Keeps hands warm and offers moisture wicking properties

Gloves that work as tough as you

Leather Gloves

ProWorks® Standard Grade Leather Palm Gloves

- Standard split leather cowhide
- Wing thumb
- Striped cotton/polyester back
- 2.5" rubberized safety cuff
- Leather palm, full index finger, fingertips and knuckle strap
- Application: Construction work, warehouse

Item #	Description	Color	Size	Selling Unit	Case Pack
GWLPEG1	Standard Grade	Gray Stripe	Large	1 dz	10 dz/cs

ProWorks® Premium Grade Leather Palm Gloves

- Standard split leather cowhide
- Wing thumb
- Orange canvas back
- 3" rubberized safety cuff
- Leather palm, full index finger, fingertips and knuckle strap
- Application: Construction work, warehouse
