The Ultimate Hands-Free Menstrual Care Product Dispensing Solution!

The new Evogen® Tri-Vend High-Capacity No-Touch Menstrual Care Product Dispenser from Hospeco Brands Group provides three solutions at once. First, the one-of-a-kind dispenser improves comfort and convenience for patrons with greater product choice and an inviting, hands-free experience; second the unit allows staff to spend less time stocking product; and, finally, the modern, hands-free dispensing action helps prevent the spread of germs and illness by eliminating yet another contact point in the restroom.

This innovative, high-capacity dispenser takes public restroom hygiene and convenience to the next level by vending tampons and pads to guests, free of charge. The dispenser has capacity to hold 36 pads and 50 tampons at the same time. Pads can be 36 of the same kind or 18 each of two different kinds, for added customer choice.

Product vends when patrons present their hand in front of the sensor. When the sensor has engaged, the dispensing area alights with purple glow providing a comfortable assurance the dispensing process has begun.

Evogen® Tri-Vend High Capacity No-Touch Menstrual Care Product Dispenser

- The Evogen® Tri-Vend High Capacity No-Touch Menstrual Care Product Dispenser is designed to reduce the spread of germs and illnesses in public restrooms.
- Dispenses both pads and tampons, free of charge. A national movement is advancing the fact that these products should be treated just like toilet paper, towels, and soap—a necessity, not a luxury.
- This high capacity dispenser is ideal for high traffic restrooms in airports, arenas, amusement parks, casinos and more.
- Increased capacity cuts down on service time for maintenance staff, translating into cost savings and efficiency.
