

Toilet Seat Cover Solutions

Toilet Seat Covers

Toilet Seat Cover Dispensers

Toilet Seat Cleaners

The new and improved standard in toilet seat cover systems

Now even better! The first and ONLY hands-free toilet seat cover system

Introducing the patent-pending Evogen® High Capacity No-Touch Toilet Seat Cover Dispensing System. New increased capacity translates into cost savings with less service time required to maintain. The system is fully contained, that is, there is no unhygienic pre-displaying of product. Instead, all seat covers are kept clean inside the dispenser. Then, with a wave of the hand, a single cover is dispensed automatically. And the seat cover is presented from the dispenser in full and ready to use — not folded and no tabs to tear.

Customers expect hands-free technology in the restroom. It's time the toilet seat cover joins the higher level of customer expectation. That's the Evogen® High Capacity No-Touch Toilet Seat Cover Dispensing System — hands-free satisfaction.

Evogen® High Capacity No-Touch Toilet Seat Cover System

- Eliminates plumbing problems caused by malicious use - patrons glomming a handful from an open dispenser
- Empty indicator light
- Easy front load access for refill
- Similar foot print to existing dispensers
- Improves the image of the restroom
- Extended battery life – only operates when dispensing (uses 4 "AA" batteries - not included)
- Holds 2 packs of refills, up to 250 seat covers
- Increased capacity cuts down on service time for maintenance staff
- Thicker and heavier paper for superior sanitary barrier
- Unfolded and "ready-to-use" direct from dispenser
- No tabs to tear reducing time, embarrassing noise, and waste resulting from either tearing the seat cover and/or dispensing more than one.
- Covered by one or more of the following US Patent Nos. 10,888,203 and 11,109,724

Auto flush tongue flushes seat cover down with the water
