Period Partner® Donates 4,000 Period Products to Help Fight Period Poverty at Network's Empow(HER) Volunteer Event

We're proud to support Network Distribution's Empow(HER) volunteer initiative benefiting [The Harbour](#)

As part of this local effort, Network employees assembled approximately 200 care packages for individuals and families served by The Harbour, a nonprofit dedicated to empowering people with the resources, support, and opportunities they need to build stability, self-sufficiency, and personal growth.

Period Partner was honored to contribute essential period products to help ensure menstrual care is included in these care packages — because access to period products supports dignity, health, and everyday confidence.
