

A Milestone Made Possible Through Partnership 💜

Period Partner is proud to have donated **30,000 period products to The Beauty Initiative in Broward County, Florida**—a donation that helped push our total giving to **more than 2 million period products donated!**

The Beauty Initiative is putting those products directly into the hands of people who need them most. The donation has supported:

- **15 Broward County Public Schools**
- Students from elementary through adult learning programs
- More than **40 libraries** through the **Beyond the Bookshelves initiative**
- Unhoused and foster youth

We're especially inspired by the organization's growing **"Dignity Doors"** program. Participating teachers and staff identify their classrooms as safe places where students can discreetly access period products when they need them. What began with a small pilot is now gaining momentum, with plans to expand the initiative to additional Broward County schools.

This is exactly what partnership can look like: local leaders recognizing a need, creating thoughtful solutions, and making sure period products are available with dignity and without stigma.

Two million products donated is a milestone worth celebrating—but even more meaningful are the students and communities those products have reached.
