

## Less Stress, More Confidence for Women in Need

We get it, period.

### Menstrual Poverty is Real, and Growing:

- Nearly 25% of NJ's homeless are in Essex County, NJ – one of our key service areas.
- In the U.S., nearly 60% of under-privileged adults are women.
- Women are twice as likely as men to receive food stamps from SNAP and are exclusive beneficiaries of WIC – yet menstrual products are excluded in both programs.

Hospesco's donation to 28 Days enables us to continue the 'flow' of feminine supplies to our 20 diverse non-profit partners – from schools & pantries to homeless and domestic violence shelters. We're proud and grateful to partner with Hospesco and **The Period Partner** program to make an impact on the lives of women and girls in need – every 28 days.
