# The complete menstrual care system.

## Do the right thing

**Women should find readily accessible tampons and pads in every restroom outside the home.**

Can you imagine any public restroom without toilet paper, toilet seat covers, paper towels, or soap? Then why don't all women's public restrooms also provide the menstrual care products women need for their periods —and make sure dispensers are always full? Now you can.

**Available supplies and sanitary disposal mean security.**

When you provide a reliable, attractive and easy to use dispenser stocked with tampons and pads — and a clean and easy way to dispose of menstrual care products — your employees, customers, and patrons will know you care about their needs and well-being — and women won't be worried when their period starts unexpectedly.

86% of people surveyed report that they've started their period unexpectedly in public **without the supplies they needed.**

# Choosing a Menstrual Care System

Hospeco Brands Group carries the most complete line of menstrual care products for the “away from home” market, including tampons and pads; product dispensers; and safe, hygienic disposal equipment. We provide an onsite analysis that will outline those products that fall within the scope of the new laws, but will also include recommendations for ancillary products designed to improve the appearance of your restrooms, protect the health of your maintenance staff, and prevent behaviors that could damage the plumbing of your facility.

Solutions included in the optimal system are marked with this symbol in the personal care products section.

## The Optimal System

Personal care is part of what constitutes a well-appointed restroom, one that has public health at its core (much as soap and water do currently.) Choosing the optimal system is easy as 1-2-3. It consists of dispensers, vended product and a safe and sanitary method of disposal.

### Step 1

Choose a Menstrual Care Product Dispenser

### Step 2

Choose vended products

### Step 3

Choose a system for safe and sanitary disposal of product

## We Have Always Believed It.

We see menstrual care solutions to be as necessary as soap, toilet paper, and paper towels. We champion universal access because, let's face it, this isn't a topic people talk easily about. When designing restrooms and specifying their equipment, few consider the stigma of being left unprepared while away from home should your period come unexpectedly. For this reason, and because “it's always been this way”, many public washrooms offer nothing.

Let's change that.

Period Partner

# Take public restroom hygiene and convenience to the next level

## Redefining a well appointed public restroom

With no-touch sink faucets, soap dispensers and hand dryers being a standard in many public restrooms and automated toilet seat cover dispensers becoming an emerging trend, the Evogen® No-Touch Menstrual Care Product Dispensers further promote a sanitary environment guests will appreciate.

Hospeco Brands Group developed the first and only no-touch menstrual care product dispensers to vend complimentary sanitary napkins and tampons effortlessly, making public restrooms more hygienic and reducing the spread of germs and illnesses. The touch-free design provides greater convenience, creating a more upscale atmosphere and enhanced customer experience.

## The Ultimate Hands-Free Menstrual Care Product Dispensing Solution!

The new Evogen® Tri-Vend High-Capacity No-Touch Menstrual Care Product Dispenser from Hospeco Brands Group provides three solutions at once. First, the one-of-a-kind dispenser improves comfort and convenience for patrons with greater product choice and an inviting, hands-free experience; second the unit allows staff to spend less time stocking product; and, finally, the modern, hands-free dispensing action helps prevent the spread of germs and illness by eliminating yet another contact point in the restroom.

This innovative, high-capacity dispenser takes public restroom hygiene and convenience to the next level by vending tampons and pads to guests, free of charge. The dispenser has capacity to hold 36 pads and 50 tampons at the same time. Pads can be 36 of the same kind or 18 each of two different kinds, for added customer choice.

Product vends when patrons present their hand in front of the sensor. When the sensor has engaged, the dispensing area alights with purple glow providing a comfortable assurance the dispensing process has begun.

### Evogen® Tri-Vend High Capacity No-Touch Menstrual Care Product Dispenser

- The Evogen® Tri-Vend High Capacity No-Touch Menstrual Care Product Dispenser is designed to reduce the spread of germs and illnesses in public restrooms.
- Dispenses both pads and tampons, free of charge. A national movement is advancing the fact that these products should be treated just like toilet paper, towels, and soap—a necessity, not a luxury.
- This high capacity dispenser is ideal for high traffic restrooms in airports, arenas, amusement parks, casinos and more.
- Increased capacity cuts down on service time for maintenance staff, translating into cost savings and efficiency.
- The touch-free feature contributes to creating a more upscale atmosphere by enhancing guests' overall comfort and experience.
- Dispenser requires (4) C batteries (not included)
- U.S. Patent # 11,141,328

**Factory programmed 5 second time delay** between dispenses to discourage malicious use.

Item #	Description	Selling Unit	Case Pack
LBS500HD	Small - 9.5" x 3.5" x 12", Frosted Clear, HDPE	1 cs	500/cs
LBM500HD	Medium - 10" x 4" x 12", Frosted Clear, HDPE	1 cs	500/cs
LBSF500HD	SecureFit360® - 12.5" x 23", 7.5" strap, Frosted Clear, HDPE	1 cs	500/cs

New and improved high density polyethylene material provides a formed and snug fit. The 12 micron thickness adds maximum strength and performance. Frosted to mask contents yet still allows cleaning staff to see and avoid potential needles and other sharps. Environmentally Friendly - sends up to 50% less material weight to landfills than kraft waxed paper bag liners.

Liners cover the inside surface to completely contain waste.

SecureFit360® poly liner bags are custom designed with a unique strap that wraps around the bottom of the receptacle to secure in place and enclose waste for fast, easy and safe removal. Strap keeps the bag tight fitting so it doesn't collapse inside the receptacle.

The 7.5-inch wraparound strap is used as a handle to eliminate the need to reach into receptacles to remove the liner. Simply pull up on the strap for safe removal of the contained and concealed contents.
