Menstrual Care Product Guide

The Optimal System

Menstrual care solutions are important for public health and are part of what constitutes a well-appointed restroom. They are as necessary as soap, toilet paper, and paper towels. Choosing your Optimal System is as easy as 1-2-3. It consists of dispensers, vended products and a safe and sanitary method of disposal.

STEP 3

CHOOSE A SYSTEM FOR SAFE AND SANITARY DISPOSAL OF PRODUCT

Safe and sanitary disposal is an important part of a complete personal care solution for public restrooms.

With no safe and sanitary way to dispose of used products, people may wrap them in toilet paper or just throw used products into waste receptacles unwrapped — or worse, flush them down the toilet.
