**HOSPECO® Introduces New Compact No-Touch Menstrual Care Product Dispenser for Smaller Restrooms**  
*Evogen® Mini No-Touch Menstrual Care Dual Vendor Dispensers are Hands-Free, Ultra Hygienic, Fit Anywhere*

CLEVELAND—December 11, 2019—No matter how small the restroom, there's always room to do the right thing with the new, compact HOSPECO® Evogen® Mini No-Touch Menstrual Care Product Dispenser (EVNT4 Series). Just 17.25" high x 10.75" wide x 6.5" deep, this smaller version of HOSPECO's innovative, first-of-its-kind hands-free dispenser has all the same innovative features as the larger dispenser. Take public restroom hygiene and convenience to the next level by vending tampons and pads to guests, free of charge, requiring just the wave of a hand.

The advanced Evogen Mini dispenser is the latest offering in HOSPECO's state-of-the-art line of no-touch, hands-free products designed to reduce the spread of germs and illnesses in public restrooms. The touch-free feature contributes to creating a more upscale atmosphere by enhancing guests' overall comfort and experience.

The Evogen model EVNT4 Series has a slim profile sized to fit any smaller-volume coffee shop, restaurant, or business, yet it holds a generous nine pads and 13 tampons. The unit is available in white, stainless, or stainless and black to complement any décor.

Considering that no-touch sink faucets, soap dispensers, and hand dryers are now standard in public restrooms—and no-touch toilet seat cover dispensers have recently joined their ranks—hands-free menstrual care product dispensing is a smart choice for operators who wish to remain on the leading edge.

The free-vend function of the Evogen EVNT4 satisfies the growing public demand to treat menstrual care products as a necessity rather than a luxury. A national movement is advancing the idea that these essential items should be provided on a complimentary basis in public restrooms, just like soap and toilet paper. HOSPECO is proud to join with other [Period Partner®](#) groups in standing up for people's menstrual needs.
