We're not the reason people leave home. We're the reason people stay safe, healthy, and comfortable while they're out.

Hospeco Brands Group delivers the operational power behind clean, safe, and well-cared-for spaces. With a resilient global supply chain, expansive domestic manufacturing, and nationwide distribution network, we ensure you have the products you need—when and where you need them. From facility maintenance and safety to hospitality and healthcare, we simplify complexity with deep expertise, robust private label programs, and a commitment to keeping your operations running at full strength.

Supporting Distributors

You won't find a more passionate, trusted, or experienced partner than Hospeco Brands Group. We are committed to helping our distributor partners grow, compete, and win in every market they serve. With one of the industry's most comprehensive product portfolios, no manufacturer offers deeper or broader coverage across the categories your customers depend on every day. From healthcare and industrial solutions to personal care, cleaning, and facility supplies, our brands deliver the performance, reliability, and value your customers expect.

Become A Distributor

Domestic Production

Hospeco Brands Group is the largest non-mill converter in North America.

We deliver unmatched scale and reliability across our operations. With eight manufacturing facilities—spanning the East, Midwest, and West—we produce everything from paper and wiping solutions to chemicals, ensuring consistent supply and speed to market. Our expansive domestic footprint, backed by over two million square feet of manufacturing and distribution space, powers the products that keep facilities, healthcare, hospitality, and foodservice operations running without interruption.

Global Partnerships

Resilient, Scalable Global Supply Chain

Hospeco Brands Group maintains a resilient, scalable global supply chain built on factory partnerships that invest in both advanced equipment and the health and well-being of their employees. Our strategically managed global sourcing and high-volume international imports are supported by a network of redundant partners across key regions and multi-port entry, ensuring continuity, reliability, and confidence in every shipment.

Private Label Capabilities

We can’t disclose our customers… but you would be impressed.

We proudly private label for some of the largest master catalog, foodservice, MRO, and industrial companies in the U.S., collaborating closely to develop the right products at the right price. With extensive domestic manufacturing and deep-rooted relationships with factories and mills overseas, we offer unmatched flexibility and reach. Our sourcing team came directly from our vendor network—they literally speak the language—ensuring seamless communication and quality from concept to delivery.

Coast-to-Coast Distribution

Benefit from over 1.7 Million Square Feet of Distribution Capacity

Hospeco Brands Group unites national distribution strength with deep manufacturing expertise to be your single source for essential products. Our strategically located centers, advanced automation, and robust supply chain ensure fast, accurate deliveries—keeping your shelves stocked and your customers satisfied with the ease and confidence of a single, trusted partner.

Your Single Source

Hospeco Brands Group delivers a complete range of products to protect, clean, and care for shared space

We serve multiple industries with deep expertise. From chemicals produced coast to coast, to durable restroom and menstrual care solutions, market-leading safety and glove programs, and the largest non-mill wiping and textile operation in North America, we're your single source for smarter, more efficient facility care.
